AGC of America needs your help!

Complete the 2021 HCSS and AGC of America Highway Work Zone Safety Survey and help protect highway workers.

AGC of America and survey partner, HCSS are asking all highway and transportation members involved in highway construction work to evaluate the state of highway work zone safety by completing this annual survey. They want to collect information on the number, severity, impacts and potential solutions to highway work zone crashes. They intend to use the information collected from this survey as the main focus of a media and public education campaign launching the week before Memorial Day, the traditional start of the summer driving season.

Please complete this important highway work zone safety survey by Friday, May 14th. Contact Brian Turmail at 703-459-0238 or brian.turmail@agc.org with any questions, comments or concerns about this survey and plans to use it to promote highway work zone safety.

Click here to take survey.
