This course will cover the following topics: professional development, record keeping, crises management, legal aspects, safety and risk management. Participants of this three-day program will receive a course manual including the instructor's material. [Click here](#) for more information.

Resume 309E

This person has a high-energy, meticulous, LEED-AP development manager with over 21 years of experience in the construction industry. Over the past four years, through outstanding depth of knowledge and hands-on approach, has led the teams overseeing the construction of more than 2,000,000 square feet of built-to-suit and speculative industrial facilities in Northern Nevada, Southern Nevada and Oregon.
