

2023

Nevada Chapter AGC Committees

AGC/NDOT (People interested in public highway transportation issues at the state level.)

The AGC/NDOT Committee meets with NDOT to discuss highway-related matters. Meets quarterly for lunch.

AGC/RTC (People interested in public transportation issues on a regional level.)

The AGC/RTC meets with representatives of Regional Transportation Commission to review matters affecting RTC street and highway projects. Meets quarterly for breakfast.

Construction Leadership Council (CLC) (People interested in professionally developing and cultivating relationships within the industry.)

The purpose of the CLC is to allow participants to network, develop leadership skills, serve their community, and exchange ideas about the industry and challenges they face as mid-career professionals. Meets monthly and has \$50 annual dues.

Education (People interested in determining the continuing education courses AGC will offer. Also, individuals interested in working with the local school district to spread the word on careers in construction.)

The AGC Education Committee brainstorms to determine continuing education courses relatable to the industry and most beneficial for members. The committee also promotes a positive image of the construction industry in K-16 classrooms by creating, sponsoring, and supporting quality educational programs. This group offers a Speakers Bureau, which is open to all members who want to educate the incoming workforce about careers in construction. Members work with Washoe County School District, ACE Charter High School, Lemelson STEM Academy and the University of Nevada, Reno. Meets monthly.

Emergency Services (People interested in emergency response and promoting relationships with local agencies)

Emergency Services Committee develops emergency response programs for natural disaster, coordinates Contractor's Auxiliary with the Washoe County Sheriff's Department and other emergency responders. Meets quarterly or as needed.

Environmental (People interested in environmental issues at the federal, state and local levels.)

The Environmental Committee works with government agencies to review matters that impact the industry and community to deliver efficient, environmentally sound projects. The committee recognizes the complexity of multiple jurisdiction regulations & works to provide consensus, understanding and long-term mutually beneficial partnerships to advance compliance and innovation. The committee meets 4-6 times annually.

Government Affairs (People interested in federal, state and local government issues.)

The Government Affairs Committee is responsible for AGC's legislative efforts. They monitor federal, state and local government, and recruit members for local citizen and planning committees. This committee will also assign additional task groups as needed. Meets monthly and *weekly* during the legislative session. (February – June on odd numbered years)

Public Works (People interested in public works issues at the state and local level.)

The Public Works Committee works with local municipal agencies assuring owners receive best value for public agency construction budget. They work specifically to resolve issues that affect public works in local government. It involves joint meetings with local public works officials. Meets 4-6 times annually.

Safety (People interested in safety related issues.)

The Safety Committee monitors safety related issues and provides safety training programs and safety materials. Meets bi-monthly at 7:00 a.m.

Women in Construction (Women interested in professional development and networking with their peers.)

The Women in Construction (WIC) Committee builds and promotes the success of women in the construction industry. The committee focuses on professional development and gives women a platform to discuss the challenges of working in a male dominated industry while supporting each other in finding solutions to those challenges. The committee meets bi-monthly with a rotating schedule of Speaker Series, Round Table Discussion & Committee Meetings, and Mixers.
