

COVID-19 Resources

There are several things you can do to help stop the spread of the COVID-19:

- Try to limit workers from commuting to work sites via company vehicles or limit the amount of people within 1 vehicle.
- Do not host large group meetings. CDC recommends avoiding gatherings of 10+ people; and when meeting, that keeping a 6-foot distance between people. Perform meetings online or via conference call whenever possible.
- Provide PPE such as nitrile gloves to workers who may be removing trash or dumping trash cans that have food or handwashing towel waste.
- Provide hand washing stations at your project provided you can protect them from freezing; ensure hand washing stations are kept clean and stocked with paper towels.
- If you cannot have hand washing stations, please ensure there is hand sanitizer available to be used.
- Work with your team and your sub-contractors on setting up clean break and lunch areas.
- Encourage any worker who may be feeling sick to stay or go home.
- Keep providing training to your team regarding the COVID-19 virus.
- Stay aware of local, State and Federal guidelines.

Please scroll down for links to local, state and federal agencies regarding their policies and procedures on COVID-19. Please check back often as this is an evolving situation and information is updated frequently.
