## Guest Speaker: Heather “Lucky” Penney

*Heather is widely recognized for her service on September 11, 2001, when she was one of two fighter pilots sent, in armed jets, to intercept Flight 93 before it reached its target in Washington, D.C. In a stoic act of bravery, Heather went on a kamikaze mission ready to use her jet as her only weapon to take down the hijacked plane.*

*Heather grew up around aviation and warbirds and always loved to fly. While earning her Master of Arts at Purdue University, she learned Congress had opened combat aviation to women. She applied to the Air National Guard where she became one of the first generation of female fighter pilots in the country and was the first and only woman in the 121st Fighter Squadron.*

*Please join us to hear Heather’s heroic and inspirational story.*
