

THE FRIDAY SCOOP WITH AGC

Friday, March 19, 2021

Welcome New Members!

Over the past three decades, Aerotek has built an unrivaled culture and their unique, people-focused approach yields a competitive advantage for clients and rewarding careers for their contractors. Today, Aerotek serves virtually every major industry. They've placed exceptional people in hundreds of thousands of roles and positions. Everything they do is grounded in their guiding principles to build and nurture quality relationships that allow them to place quality people in quality jobs.

All American Asphalt and Sealing, Inc.

All American Asphalt Sealing, Inc. is a leader in the asphalt paving and maintenance industry in Reno, NV. They have the professional experience to take on any residential or commercial asphalt project. You can trust their licensed and insured team to revitalize the look of your asphalt on time and on budget!

IQC Southwest, LLC (IQC) is a client-focused, technology-driven engineering firm focused on providing quality assurance (QA), quality control (QC), third-party special inspections, and construction materials testing services. IQC's Special Inspectors and Materials Technicians have certifications from ACI, NAQTC, ICC, AWS, and ASNT.

IQC has performed professional engineering services for public works, school districts, commercial, private, and federally funded projects. They are also a member of the International Union of Operating Engineers Local 12 and Local 3 in Nevada and California.

MWH Constructors (MWH) is a leading global project delivery company with a focus on water and energy. With the ultimate goal of delivering maximum value to clients and their local communities, MWH provides single-source, integrated design and construction services and a full range of project delivery methods. Incorporating industry-leading preconstruction services and safety practices, the Company's multi-disciplined team of engineering and construction professionals delivers a wide range of projects, including new facilities, infrastructure improvement and expansion, and capital construction services.

MWH has some of the world's leading innovators in water and wastewater technology with roots going back to 1820. With approximately 2,200 employees worldwide, including 330 engineers, MWH currently includes Slayden in the northwestern United States and MWH Treatment in the United Kingdom.

Pokrajac Corporation is a professional General Engineering contractor specializing in excavation, grading, and paving. Over the past three decades, their projects have showcased their commitment to providing active, hands-on management, and quality of work.

Pokrajac has an impeccable track record for completing complex projects on

time and on budget, thus the client's standard of excellence is ensured. From their inception in 1984, their management team has maintained the highest levels of dependability, efficiency, and professionalism with a constant drive toward customer satisfaction making them a leader in the industry.

SITECH Intermountain is established in Utah and Nevada as well Wyoming, Arizona and California. SITECH Intermountain joins the premier network of SITECH dealerships the first fully dedicated global distribution network offering the most comprehensive portfolio of construction technology systems available to the heavy and highway contractor.

The team at the SITECH Intermountain understands how to apply Trimble technology to effectively solve some of the biggest challenges you face on the construction site. They will help you leverage Trimble systems for your entire fleet of heavy equipment and they are your local experts for Trimble Connected Site solutions. Here are just a few of their areas of expertise:

- Grade control systems
 - Site positioning systems
 - Machine monitoring
 - Machine weighing
 - Construction software
 - Wireless and Internet-based infrastructure
-

Stanley Steemer of northern Nevada has been serving northern Nevada and the Lake Tahoe region since 1985. Locally owned and operated by Brandon and Nicole Koch. Stanley Steemer has always been known for their carpet and upholstery cleaning service. Today, they can provide cleaning services of residential and commercial air ducts, certified by the National Air Duct Cleaners Association (NADCA). If you are completing any type of remodel, system replacement or new construction, a NADCA certified air duct cleaning is highly recommended as dirt, dust and debris particles buildup from daily HVAC use.

Additional services include tile & grout cleaning, stone polishing and water mitigation & remediation services. You can book services for a one-time cleaning or set up a maintenance program with recurring cleanings to keep your business clean and healthy throughout the year. At a moment's notice, an estimate or cleaning can be scheduled online or through our local and national

call centers 24/7. Once on site, you can be assured that Stanley Steemer will provide a cleaner, safer environment that leaves a positive impression on customers and employees.

Exciting Announcements

Member Services

The [American Rescue Plan Act, 2021 \(ARPA\)](#), the third COVID-19 stimulus bill, has provided much relief but also raises many questions. Like its predecessors, this new \$1.9 trillion stimulus package includes several benefits-related provisions relevant to employers and plan sponsors.

Clients and friends of L/P Insurance Services are invited to join them on April 1, 2021, at 11:00am PST for an exclusive webinar with their employee benefits compliance attorney, Stacy Barrow.
